CERTIFIED SERVICES PROVIDER™

Comprehensive Learning Management System Services by Eiffel Corp

Eiffel Corp is your one-stop solution for comprehensive services related to enterprise Learning Management Systems (LMS) requirements. We go beyond just providing technical support, striving to offer a holistic suite of services that cater to every aspect of your LMS needs.

A Partner in Digital Teaching

What is it that we offer? Simple. We bring over two decades of education experience to the table, with solutions that culminate in a sustainable digital learning ecosystem. We know that things have changed – institutions need a reliable virtual environment for teaching and learning. In Partnership with Moodle, we bring you:

- ✔ **Trusted Digital African Experts:** We bring you our African knowledge twinned with international experience.
- ✔ **Flexible Solutions:** We adapt so that you don't have to - give us your wish list!
- ✔ **Lifelong, Reliable Services:** We provide consulting, training and technical support.
- ✔ **Local Everything:** Sustainable pricing, secure hosting and real time support.
- ✔ **Strategic Partnerships:** Our partnership with Moodle enables us to offer cost-effective, advanced enterprise LMS solutions.
- ✔ **Community:** 2 for 1, join our African focused ETI community & the worlds biggest OS community with us!

Eiffel Corp offers a strategic partnership with institutions to curate meaningful education experiences together

OUR LMS SERVICES INCLUDE

LMS Installation

The installation of Moodle is a collaborative effort that takes into account the specific needs and goals of the client. We ensure a customised and well-structured Moodle LMS tailored to our client's requirements and supported by ongoing services and expertise.

Technical Support

Our dedicated technical support teams are there to assist you at each step. With local support and globally experienced professionals, we resolve your technical issues swiftly, ensuring minimal disruption to your learning environment.

Maintenance & Updates

Technology is continually evolving, and so should your LMS. We help you stay current by performing routine maintenance and applying updates, thus enhancing security, performance, and incorporating new features.

LMS Integration Services

We offer both the integration service and support for these activities. We assist with design, develop, and implement these integrations while ensuring they align with the client's needs and goals. We also offer a number of solutions that integrate with Moodle, namely Turnitin, Respondus, and Invigilator.

Hosting Services

Our partnership with Amazon Web Services (AWS) ensures your LMS is hosted on a robust, secure, and reliable platform. AWS hosting offers unmatched security, scalability, and functionality.

User Training

A powerful LMS is only as effective as its users allow it to be. We provide user training to help educators, administrators, and students make the most out of your LMS.

Consultation & Strategy

We partner with you to understand your objectives and challenges, guiding you on strategic decision-making related to your LMS and suggesting ways to optimise its use for achieving your educational objectives. We develop interactive eLearning content and guide digital education strategies.

HARNESS THE POWER OF

CLOUD COMPUTING WITH AWS

If you're considering the cloud or your current cloud isn't meeting your expectations, we invite you to join us, as we leverage the power of Amazon Web Services (AWS), the largest cloud provider.

Cloud computing offers numerous benefits for educational institutions. Here are some key advantages:

- ✓ **Cost Savings:** Institutions can avoid large up-front investments in hardware and maintenance by paying only for on-demand resources.
- ✓ **Scalability & Flexibility:** The ability to adjust computing resources based on demand, adapting to peaks like exam seasons or large online courses.
- ✓ **Accessibility & Collaboration:** The cloud enables access to educational resources from any location or device, facilitating distance learning and collaboration.
- ✓ **Enhanced Data Security:** Cloud providers offer encryption, access controls, and backups to protect sensitive educational data.
- ✓ **Improved IT Efficiency:** By reducing maintenance and infrastructure management needs by shifting to Cloud, IT staff gain valuable time to focus on strategic projects.
- ✓ **Easy Integration:** Cloud-based services can connect with institutions' Learning Management Systems (LMS) and Student Information Systems (SIS), streamlining workflows.
- ✓ **Disaster Recovery & Business Continuity:** Cloud service providers usually offer robust disaster recovery mechanisms that allow for quick restoration of systems and data in the event of disruptions.

These benefits of cloud computing contribute to **improved accessibility, collaboration, efficiency, and security in educational institutions**, ultimately enhancing the overall learning experience for students and educators.
